Introduction

An enthusiastic Frontend Developer with 5+ years of experience in React.js and Next.js ecosystem. Specializing in crafting high-quality, visually impressive, and user-focused digital experiences. I love continuously learning, discover new things, and experimenting with ideas that balance design, functionality, and efficiency.

Experiences

Telkom Indonesia – Frontend Developer   February 2020 – March 2025

Telkom Indonesia is the country's largest state-owned telecommunications company, serving over 150M+ customers and playing a key role in Indonesia's digital transformation. Key Projects: Data Exchange, My IndiHome, Smart Profile, Smart Capex.

- Designed, developed, and maintained scalable frontend solutions using the React.js ecosystem, ensuring high performance and maintainability.
- Conducted unit testing, debugging, and performance optimizations to enhance application stability and efficiency.
- Led the frontend development team, providing mentorship and guidance to ensure best coding practices and responsiveness across all devices.
- Developed and enhanced internal dashboards for data management, streamlining internal processes and improving operational efficiency.
- Collaborated closely with backend engineers to integrate new features seamlessly, ensuring efficient API communication and data flow.
- Worked alongside UI/UX designers to translate design into reusable and scalable component code.
- Revamped the website interface, leading to an improved user experience and improved user interaction.

Galajidar Theta Optima – FullStack Developer Intern   June 2019 – July 2019

Galajidar Theta Optima is a software house based on Bandung.

- Collaborated with design team and implemented designs into code.
- Create company profile website and CMS dashboard using PHP, Materialize, and MySQL.

Education

Telkom University – Diploma of Software Engineering, GPA 3.68   2017 – 2020
